DETAILED ACTION

Response to Arguments

1. Applicants' arguments, filed 6/5/2008, have been fully considered but they are not deemed to be persuasive. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn. The following rejections and/or objections are either reiterated or newly applied. They constitute the complete set presently being applied to the instant application.

2. Applicant's arguments with respect to the rejection of claims 16-22, 25-31 and 33 under 35 USC 103(a) have been fully considered but they are not persuasive:

Claims 16-22, 25-31 and 33 are rejected under 35 U.S.C. 103(a) as being unpatentable over de Fonseca, et al. ("An anorexic lipid mediator regulated by feeding"; 2001 Nov; Nature; 414:209-212) and Di Marzo, et al. ("Leptin-regulated endocannabinoids are involved in maintaining food intake"; 2001 Apr; Nature; 410: 822-825).

Applicant argues that a prima facie case of obviousness can be rebutted by a showing of synergism in the claimed inventive compositions, from the data presented in Figure 21. It is noted that synergism is present, specifically for the dosage amounts of 1 mg/kg OEA and 0.3 mg/kg Rimonabant (SR141716A). These are the only concentrations of the drug combination for which synergism has been demonstrated. An examination of the data at the OEA dosage of 0.5 mg/kg with 0.3 mg/kg rimonabant shows that this combination of dosages does not demonstrate synergism. Since the lower OEA dosages, such as 0.5 mg/kg, along with 0.3 mg/kg rimonabant are also

within the scope of the instant claim boundaries, the rejection of record is maintained for the non-synergistic embodiments of the OEA and rimonabant composition.

An amendment to the instant claims limiting the claims to the elected compounds OEA and rimonabant at dosages corresponding to 1 mg/kg OEA and 0.3 mg/kg Rimonabant, for which synergistic results have been demonstrated, would overcome this rejection.

Conclusion

3. No claim is allowed.
4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
